- Experience in a food and beverage packaging line will be an advantage
- Self motivated
- Attention to detail
- Ability to interact and work effectively in teams
- Analytical
- Self Driven
- Responsible
- Competitive
- Adaptive

Output and Accountabilities

The Learnership is a structured learning programme that combines practical and theoretical learning in an integrated programme. The learner is given exposure to theory and then opportunity is given for the application of the theory.

Further characteristics of a Learnership are:

1. The Learnership leads to a national qualification registered on the National Qualifications Framework (NQF)
2. The qualification is based on SAQA (South African

- Qualifications Authority) registered unit standards.
3. The unit standards are written to reflect value adding skills required in the workplace and contains the outcomes and assessment criteria.
 4. Competence is demonstrated in the workplace utilizing a variety of assessment methods and using assessment criteria as the standard of performance.
